

# eXtend Tool Life.

Z-Carb End Mills with JetStream deliver coolant with targeted precision via 4 connected, in-line coolant channels.

Patented Manufacturing Design

*Enjoy genuine Z-Carb performance enhanced by the benefits of exact coolant delivery in your slotting, pocketing and hard-to-access applications.*

## Benefits

- Helps to reduce the development of built up edge (BUE)
- Improved tool life
- Decreased damage from recutting chips
- Reduced cutting loads and forces
- Helps to improve workpiece accuracy
- Helps to avoid coolant waste

Maximize your tool life, profitability and part quality with the targeted lubricating, cooling and chip evacuation properties delivered by the JetStream Z-Carb End Mill.
